M-138

M-141

M-138/141 Alfa Romeo 6C 1750 GS, 1930

This new, fantastic CMC-model is about to arrive soon. The streetversion, M-138, arrives in October, the Mille Miglia-version M-141 will come about 4 weeks later, probably together with the unpainted version M-142. CMC have announced that orders for the Mille-Migliacar will be cut substantially, (the limitation is 2000 models only). At the moment I'm not sure if all pre-orders can be supplied. As an alternative, you can still order the streetversion M-138 and the unpainted M-142 (lim.ed. 1000)

Bauer 1:12 scale Bugatti Atalante: delayed until 2016

This model, first announced to be released in May, then 4 Q, will not arrive until 2016, Bauer has announced. Looking at earlier experience with Bauer this comes hardly as a surprise. Ofcourse you can still pre-order this model, which is supposed to come in 2 versions: red/black (LE 1500) and yellow/black (LE500)
