

The original date to send your orders at PRE-ORDERPRICE was Feb. 2nd. I can now inform you that this date had been extended to the **9th of February**.

If you have not yet given your orders or confirmed your earlier orders from 2018/2019, please do so this week.

After next week I'm not receiving my extra 5% discount from CMC anymore, which discount I'm passing on to my customers if ordering their models in time (during the pre-order period until Feb. 9th.).

This year, quite a few rather "expensive" models have been announced, including the Mercedes Benz 600 Pullmann in 6 different liveries/couloours.

I can imagine that the price may be an obstacle, but I'd like to invite you to see two great video's, now soon available on my website, where you can see the models as they are presented at the Toyfair in Nuremberg, and how they are produced in the CMC-factory in China.

Pricelist older models

The pricelist of older models (in stock or still available from CMC) has been updated, as prices on the list for the models in stock did not match the prices on my website. So quite a few models are cheaper now, see the attached new list. The period to order these models, especially the ones to order from CMC at lower prices, has also been extended to **February 9th**.

SO PLEASE, DON'T FORGET TO SEND ALL YOUR ORDERS (AND CONFIRMATION OF EARLIER ORDERS) BEFORE

FEBRUARY 9TH, 2020

Thank you.
Henk
