

This is a reminder; you only have to react if you have not done so already in the past week.

CMC has given me one more day for confirming the pre-orders.

These must be received by me by Sunday, Feb. 13th. at the latest.

If you have not yet confirmed orders from 2021 or before, I urge you to do so. T

There are waiting lists for some models (especially the Ferraris with numbers M-199, M-211, M-212 and M-213).

If you have not yet confirmed the orders for 2021 and before that on Saturday 13/2,

I feel free (after 3 letters / reminders) to pass these orders on to people on the waiting list.

If you are on the waiting list, and If a model is assigned to you, you will receive a personal message from me.

If you do not receive a message, your name will remain on the waiting list, because it is always still possible that additional models may become available somewhere, for example due to cancellations outside the EU.

Prices.

I have set my prices very carefully, so that they are always among the lowest you will find in the market.

For example, in comparison with a large supplier such as cmc modelcarshop de (this is not -as is often thought- a CMC webshop) I am almost always cheaper.

You may come across some lower prices at other suppliers, but the question is whether they have covered their purchases with CMC.

I only sell models whose delivery is assured by an order confirmed by CMC, so you can be sure that the model will be you. delivered at the price agreed with you.

Earlier (confirmation) of pre-orders 2022

If you have already placed (or confirmed) pre-orders for 2022 in the past week, the price agreed with you at that time applies.

(some prices have since been increased because the models in question are now sold out at CMC).

For new pre-orders, the prices as indicated on the attached new price-list apply.

Appendix: new price list, with a. current pre-order prices

b. prices from Sunday, February 13th

Best regards, Henk
