

MODELS 2023

As you may remember, at the beginning of this year at the presentation of the Neuheiten new models) from CMC, some models were sold out after just a few hours.

As a result, I was unable to order enough of some models.

I don't want that to happen again. This time I have the cooperation of CMC, provided I pass on the desired numbers in time.

That's why I'm enclosing my "pre-preorder list" for the new models from CMC expected in 2023.

The final list (and prices) are expected around the Nuremberg Toyfair, from February 1 ~ 5, 2023.

To ensure that you can order these models with a 5% discount on the CMC price, you can now already specify the models for which you are interested.

I will then ensure that the order is placed with CMC on time. This pre-order is without any obligation, you can place a final order in January/February.

UPDATE

The status of the release of the models is currently as follows:

-All Ferrari 275 GTB/C models are now on the market. Some models are still available (see list attached), sometimes at considerably higher prices due to more expensive purchasing and additional import costs.

-the first Mercedes Uhlenhaut (M-076, red interior) has also appeared, I still have a few models available.

- the other versions of the Uhlenhaut are expected in early 2023, then the

Alfa P3 (7 variants) and perhaps the other new models (Porsche 904/Ferrari 250 LM Le Mans) will appear in the second half of 2023.

CMC has not confirmed the issue of the latter model, at the moment there is only talk of a rumor.

Attached is an overview of the Porsches and some images.

The pre-order list is attached, including the models still to be ordered from stock.

Please send your reaction as soon as possible.

Kind regards, Henk ten Cate
